CO-EXTRUSION DECKING

塑木共挤地板

The co-extrusion wpc products are the latest developed products. It was extruded together by two different WPC materials in an especial process. This not only retains the advantages of traditional WPC products, but also shows some more significant advantages. This kind of products can meet a higher level of needs.

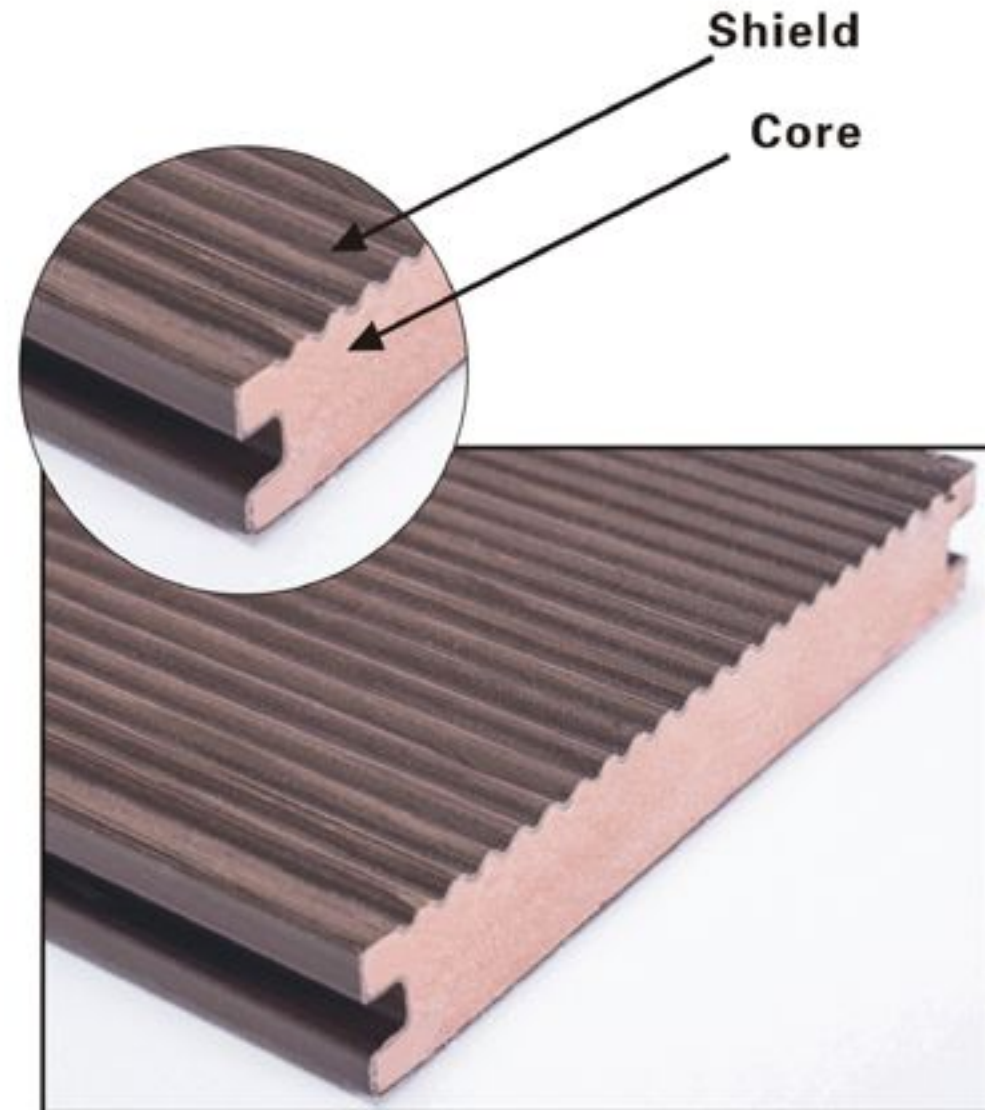

最新研发的木塑共挤产品，由两种不同的木塑材料同时挤出、一次成型。独特的工艺不仅保留了传统木塑的优点，同时展现出比传统木塑更加显著的优势，能够满足您更高层次的需要。

BAMMAX® 新型塑木地板的特性

*New Technology,
New products!*

- 抗污渍和刮损
- 防霉变、腐烂、开裂、虫蛀
- 抗褪色
- 无须油漆
- 不含甲醛
- 超强的木质感
- 经久耐用
- 耐刮擦
- 超强抗冲击性
- 耐热
- 抗老化
- 抗污渍
- 颜色稳定不褪色

Stains

Wine, coffee, soy sauce, vegetable oil etc. cannot stain the board. Messes can be easily wiped off the surface because the liquid never gets absorbed by the shield, which makes outside shield very easy to clean and low maintenance.

Mildew, Mold, Rotting, Splitting or Cracking

The shield provides an impermeable layer, so there is no fungus growth or splitting able to occur on the surface of the board, therefore, giving outside shield a longer life span than regular uncapped composites.

Color Fading

The unique formulation of the shield ensures its color stays much compared to conventional composite decking. The result of 3000 hours in a QUV accelerated weathering test chamber is Delta E < 4.0, meaning no visible color change can be observed with the human eye.

Painting or Oiling

The multichromatic colors are a part of the shield's formulation meaning that you will never have to paint, sand, or oil again.

- Better natural surface.
- Various color choices.
- Longer service life, 25 years limited warranty.
- Improved surface, better resistant to scratch.
- Stronger toughness

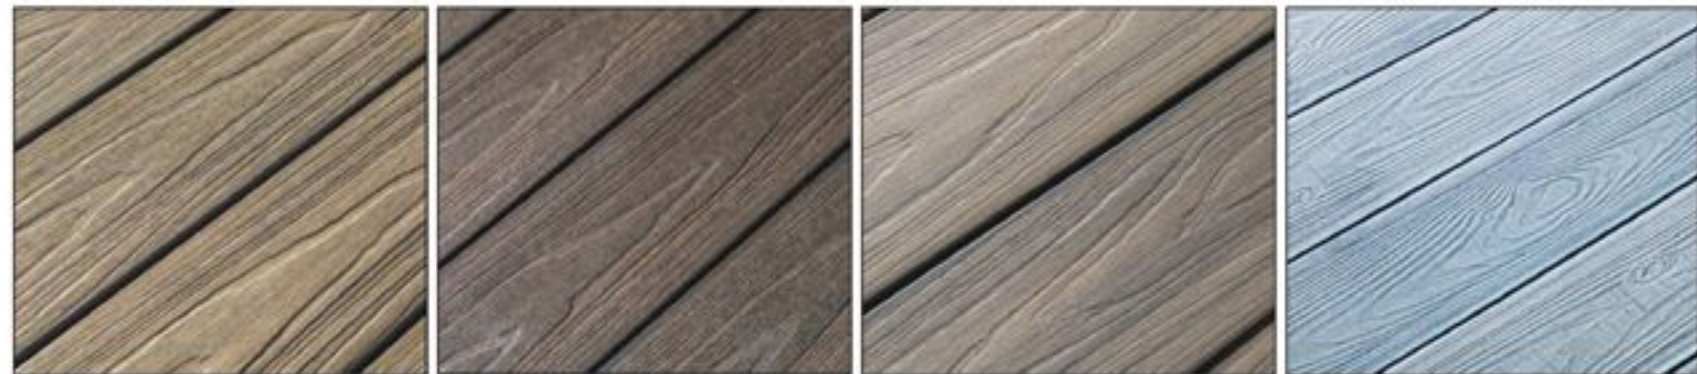

木塑共挤产品与普通木塑产品相比, 优点在于:

- 木纹清晰, 产品表面的木质感更强。
- 颜色丰富自然, 更加多样化。
- 使用寿命更久, 25年质量保证。
- 表面坚硬, 不易划伤, 容易清洗。
- 比普通木塑强度更高。
